

Mobility Fundamentals

Foundational

Networking

Course Overview

Starting with Wireless Technology Standards, the Mobility Fundamentals series teaches students about wireless and mobility technologies in the Digital Transformation Age.

Topics covered in these instructor-developed courses include wireless LAN design, security and mobility applications.

Benefits

Builds foundational wireless and mobility technology career skills for current IT Essentials or CCNA R&S students interested in expanding their skills.

Learning Components

- Six modules of multimedia content
- Video recordings featuring Networking Academy instructors
- Activities that reinforce learning, including Cisco Packet Tracer activities
- Assessments, including module quizzes
- Certificates of completion for each module

Target Audience: Secondary, 2-year and 4-year college students

Prerequisites: CCENT knowledge

Instructor Training Required: No

Languages: English

Course Delivery: Instructor-led or Self-paced

Estimated Time to Complete: 1.5 hours per module, total 9 hours

Complementary Courses: CCNA R&S Introduction to Networks, CCNA R&S Routing and Switching Essentials
