Technical skills are more important than ever

97
million jobs

Expected to be generated
by 2025 through
machine-integration efforts¹

44%

of decision-makers struggle to
hire skilled candidates.²

60%

of IT managers say job applications with
industry-recognized certifications are significantly
more likely to be reviewed.⁴

59%

of recent graduates believe
college didn't teach them skills
for their first jobs.³

79%

of employers agree that employees could
benefit from training on working alongside AI
and other new technologies in their current
roles.⁵

Preparing students for the jobs of tomorrow

Students

Students want to jumpstart their careers with hands-on experiences and make their resumes stand out with in-demand, industry-recognized technical certifications.

Educators

Educators can enhance their curriculum with continually updated technical content that's relevant to industry needs and real-world job responsibilities.

Institutions

Access training and tools that prepare faculty to deliver cutting-edge technical instruction, offering students the opportunity to become broadly educated and technically skilled.

Microsoft Learn for Educators

Equip your students with tech skills for today—and tomorrow

Microsoft Learn for Educators provides higher education institutions and faculty with a **suite of tools and resources** that **enable technical skills instruction** aligned to industry-recognized **Microsoft Certifications**. By augmenting the existing degree paths of your students with these in-demand skills and certifications, you'll set them up for **real-world success**.

Sharpen your skills

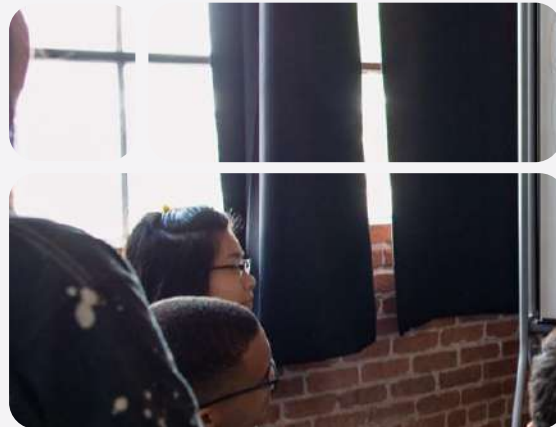

Access training and tools that prepare faculty to deliver cutting-edge technical instruction and hands-on labs.

Student-empowering curriculum

Build students' technical skills with Microsoft Official Curriculum, educational materials, tools and certifications.

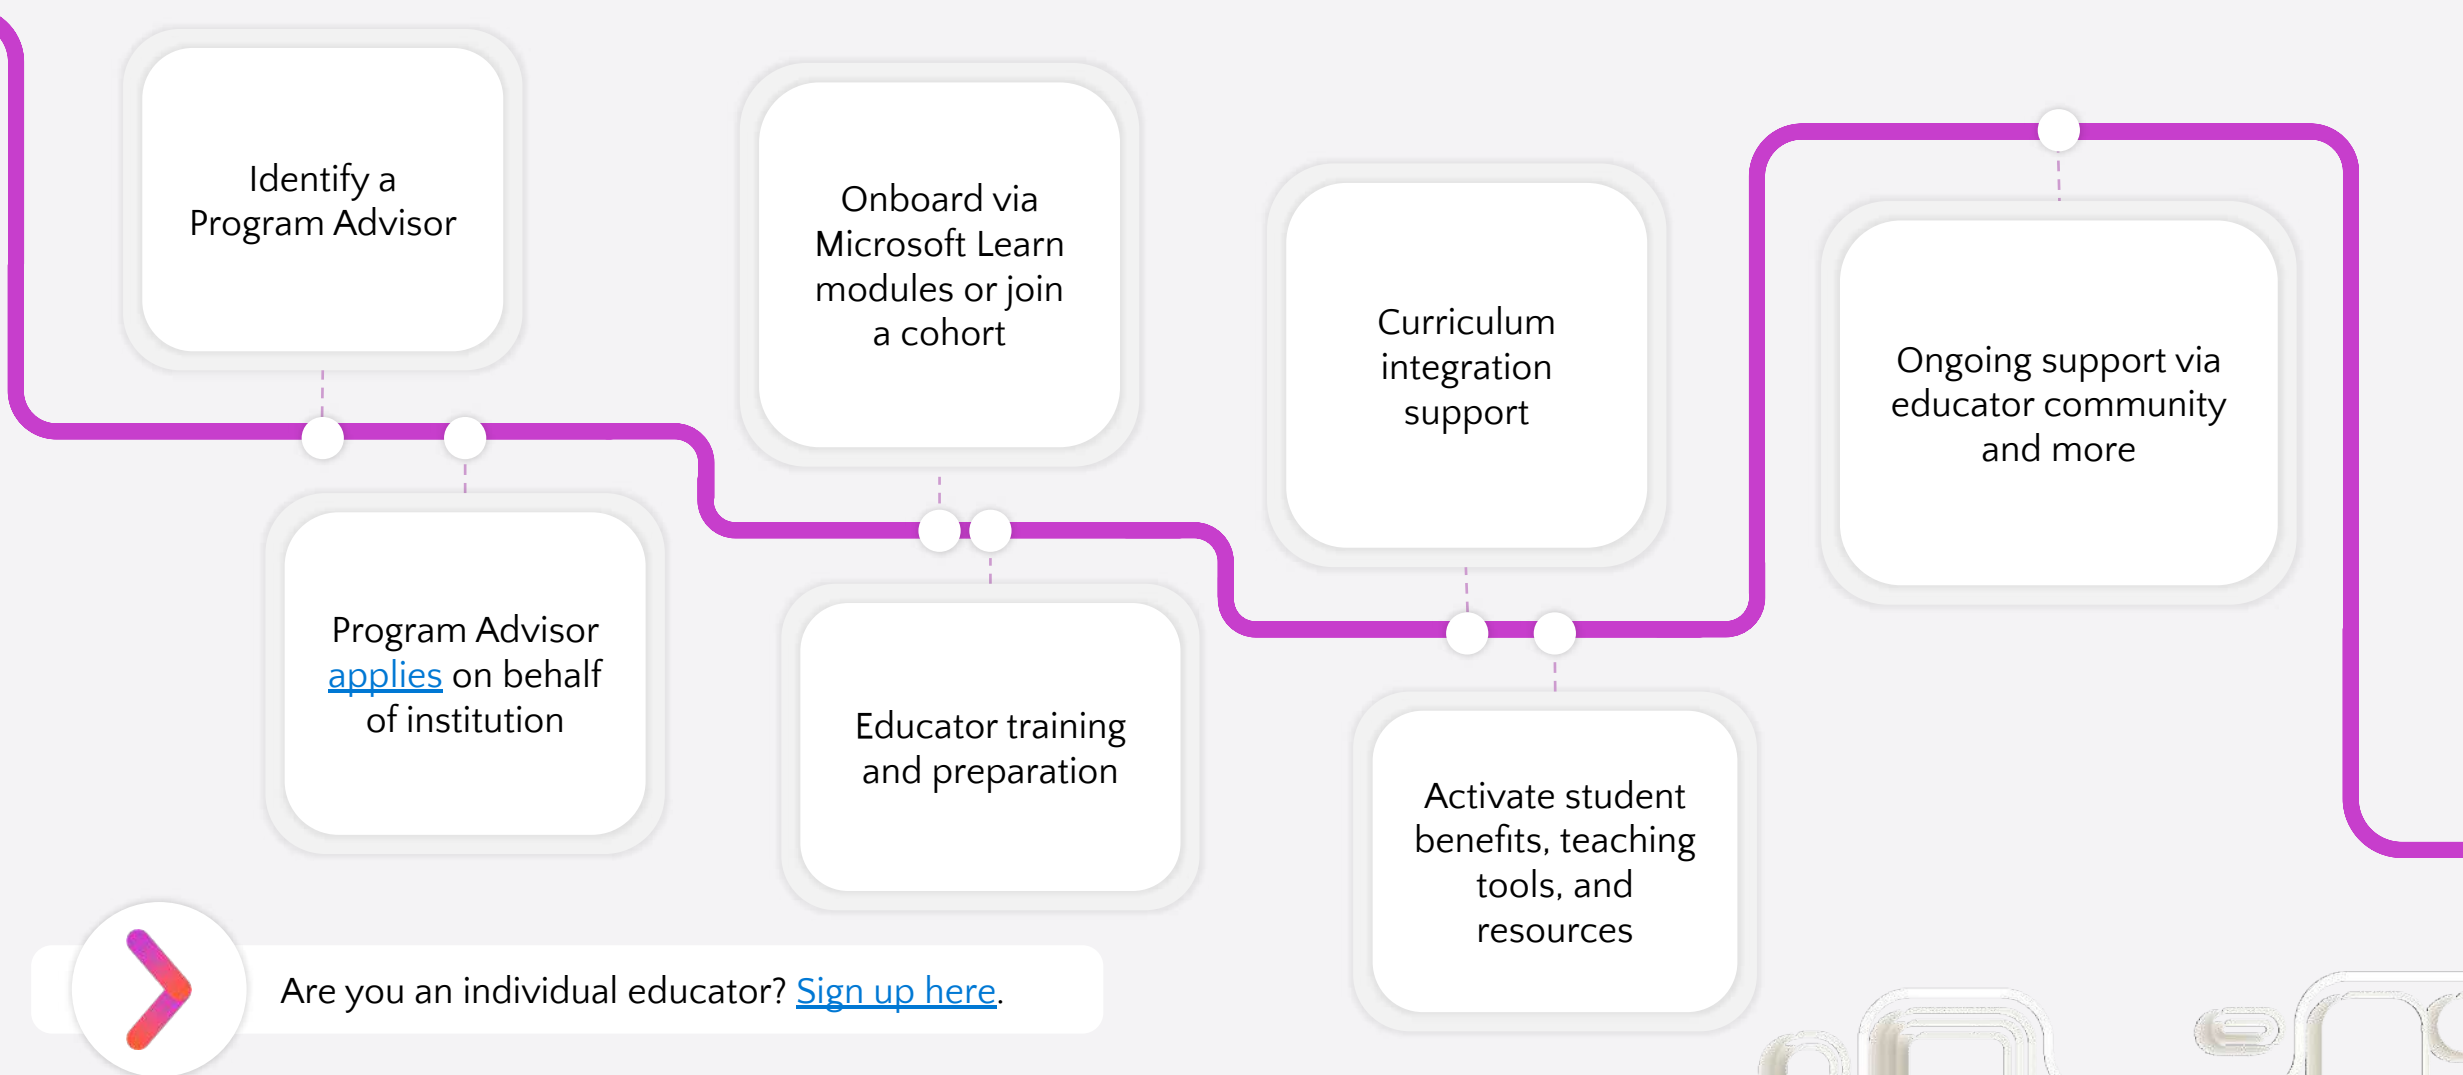

Career connections

Get introductions to Microsoft customers and partners that can inspire your students and hire your graduates.

Get started today

Build students' technical skills with end-to-end guidance and support from Microsoft

Microsoft Learn for Educators: Getting Started

Onboarding, preparation, and support of all MSLE Educators and Institutions

Week 1

Onboarding to Microsoft Learn for Educators
Overview of MSLE and program resources

Week 2

Educator Training

- Training (Microsoft Learn, MVTDs, MOC on-demand, VEPS)
- Practice assessments & exams
- Demo LDC
- Curriculum integration options

Week 3

Course Preparation

- Course intake walkthrough
- Skillable lab walkthrough
- Azure for students & Dev tools for teaching
- Certify students
- LMS/API resources

Transition to MSLE Teams Community

AdHoc

Onboarding to Microsoft Learn Career Connected

- Overview of MLCC
- Requirements & Benefits of joining MLCC

- Live, instructor-led, open enrollment sessions
 - Moderated Q&A
- Sessions supporting three time zones
 - On-demand video option
- Languages supported: English, Spanish, Portuguese, Chinese Traditional, Arabic, French

Microsoft Learn for Educators + Industry Certifications

Below are offering these Fundamentals and Advanced Role-based courses and certifications

Microsoft Fundamentals Certifications

- [Azure Fundamentals](#) (AZ-900)
- [Azure AI Fundamentals](#) (AI-900)
- [Azure Data Fundamentals](#) (DP-900)
